May 20, 2021

Dear hiring team,

I am currently attending Western Governors University in pursuit of a master's degree in Cyber Security and Information Assurance. I am excited to be considered for the available position. The following paragraphs summarize my education, experience, and personal attributes that will enable me to contribute positively to the available position.

Computer Science Education. I am currently working towards my degree in Cyber Security and Information Assurance I only have four courses remaining to graduate. I am on track to graduate with my master's degree in the summer of 2021. I am also currently working as an Associate Fullstack Programmer for Weber State University.

Languages, development, and tools. I have worked with several coding languages in my current position to include JavaScript, HTML, CSS, and Python. In my course work and side projects, I have worked with SQL, LINQ, C++, C#, Java, and PHP. I am familiar with several version control tools to include GIT and Bitbucket. I am experienced with multiple IDEs to include but not limited to Android Studio, Eclipse, Visual Studio, PyCharm, IntelliJ IDEA, Visual Studio Code and XCode. In addition, I am very comfortable using Project management tools to include Asana.

Personal Attributes. To complement my education and experience, I have developed professional and effective communication skills, both written and oral. I work well collaboratively with others and am a team player. I am confident that these interpersonal attributes would fit well in the professional culture of this position.

The resume attached to the application gives additional details about my qualifications. After you have reviewed the resume, I would appreciate the opportunity to talk more about how I might positively affect this workspace and position.

Sincerely,

Jessica Rojas
